

CUSTOM ENGINEERED CONVERSION MANIFOLDS

ex. 2500-ton IDRA

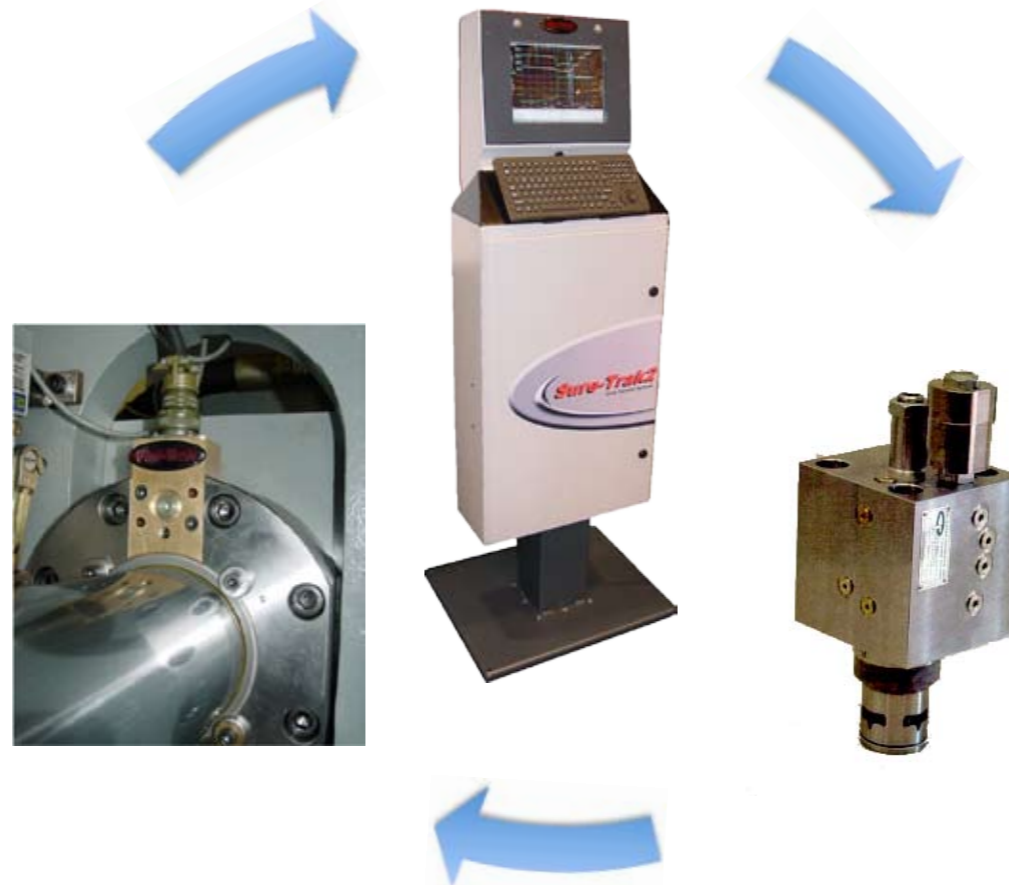

ex. 1600-ton Prince

ex. 600-ton HPM

VISI-TRAK SENSORS, SURE-TRAK2 CONTROLS, OLMSTED THROTTLING VALVE

YOUR AGING SHOT-END

**BÜHLER, HPM, IDRA, PRINCE,
TOSHIBA, WOLNIAK, UBE
and more...**

BETTER CONTROLS ARE GOOD BUSINESS

- On-site Installation in just a couple of days
- Less Scrap, Less Downtime, Less Tool Wear
- Dramatically increase OEE and shippable shots/hour
- Save hundreds of thousands of dollars vs. buying new
- Increased performance, add new capabilities,
- Service new markets with your existing machines

“The manifold block arrived on a Tuesday morning, and by Thursday afternoon the shot system was up and running.

The retrofit package and the Sure-Trak2 Control from Visi-Trak[®], has given us a shot system with outstanding control & performance.”

DAVE BROCKMAN

Senior Fabrication Project Engineer
The Toro Company, Windom, MN.
